About

POCTOVA

WHO WE ARE

Poctova is the EIB Group's fashion and defence manufacturing brand, combining premium apparel with advanced protective solutions. From bespoke civilian wear and corporate uniforms to ballistic gear, military uniforms, armoured vehicles, combat equipment, and tactical accessories, Poctova delivers end to end solutions engineered for performance, protection, and style. Driven by precision manufacturing, strict quality standards, and innovation, Poctova has become a trusted Nigerian manufacturer serving government institutions, security agencies, corporate organisations, and private clients with durable, high quality garments and defence equipment.

Our Mission

To provide the Armed Forces of Nigeria with premium quality uniforms that enhance operational effectiveness while fostering a culture of pride and professionalism among service members.

Our Vision

To become Nigeria's foremost indigenous garment manufacturing company delivering world class textile solutions across multiple industries, reducing dependence on imported apparel, and proving that locally made can mean globally competitive.

Key Activities

- Fashion forward designs for private and official use, ensuring clients maintain a professional and distinguished appearance.
- Production of tactical gear, body armour, and custom bulletproof apparel manufactured to rigorous standards with cutting edge materials.
- Fabrication of military hardware and defence assets including armoured vehicles, gun trucks, fortresses, ballistic helmets, and military gear.
- Strategic supply to the police, military, and VIP protection agencies equipping the nation's most critical personnel with reliable, locally sourced protective clothing.
- Blending desirable aesthetics with defence grade materials, challenging the perception that protective gear must be bulky or conspicuous.

DESIGNING PROTECTION & ELEGANCE

OUR CORE STRENGTH

Poctova's core strength lies in its ability to blend aesthetics with defence grade functionality, ensuring that wearers are both stylish and secure. Our design philosophy is executed across four integrated pillars:

1 Fashion Forward Apparel

We create sophisticated, high quality, fashion forward designs suitable for both private and official use. From ceremonial attire to executive wardrobes, every piece is engineered to help clients maintain a professional and distinguished appearance in any setting.

2 Defence Grade Production

Poctova manufactures high performance security and defence equipment, including tactical gear, advanced body armour, bulletproof apparel, armoured vehicles, gun trucks, ballistic helmets, and protective fortifications. Every product is engineered with premium materials, rigorous quality control, and military grade standards to deliver maximum protection, reliability, and operational performance.

3 Strategic Supply & National Security

The brand serves key national interests by supplying its specialized products to the police, military, and VIP protection agencies. This ensures that the nation's most critical personnel are equipped with reliable, locally sourced protective clothing strengthening supply chain sovereignty while supporting indigenous manufacturing.

4 Aesthetic Integration

Poctova excels at blending desirable aesthetics with defence grade materials, leading the charge in ensuring that security and style are no longer mutually exclusive. The result is top tier protection that is elegant, discreet, and dignified.

Beyond the Defence Line: Civilian Fashion

Beyond its tactical and ballistic innovations, Poctova extends its expertise into civilian fashion, crafting premium casual and corporate wear that embodies the same principles of quality, precision, and durability found in its defence line. Each piece is designed to reflect confidence and sophistication from sharp, tailored suits that command attention in the boardroom to relaxed yet refined casual outfits that exude effortless style. Poctova's design philosophy ensures that every garment is not only aesthetically appealing but also meticulously constructed to deliver comfort, longevity, and a perfect fit.

MILITARY FABRICATION & DEFENCE MANUFACTURING

ENGINEERING NATIONAL SECURITY

Complementing its apparel and ballistics lines, Poctova operates a dedicated Military Fabrication Division engineering and manufacturing hardened defence assets and protective equipment for the armed forces, security agencies, and specialized protection details. This division extends Poctova's mission from what personnel wear into what personnel operate, defend, and deploy making Poctova a true end to end defence solutions provider.

Fabrication Capabilities

Armoured Vehicles – Design and fabrication of armoured vehicles engineered for troop protection, convoy security, and high risk VIP movement combining ballistic rated shielding with operational mobility and reliability.

Gun Trucks – Conversion and fabrication of gun trucks tactical, weapons mounted vehicle platforms built for patrol, escort, and rapid response operations in demanding terrain.

Fortresses & Fortifications – Construction of fortified defensive structures and field fortresses, providing secure emplacements, protected positions, and hardened installations for military and security operations.

Bulletproof Jackets – Production of bulletproof jackets and advanced body armour, manufactured with certified ballistic materials and rigorous resistance testing for dependable life saving protection.

Ballistic Helmets – Manufacture of ballistic helmets engineered to defence grade protection standards, delivering critical head protection without compromising comfort, visibility, or endurance in the field.

Military Gear & Equipment – Full spectrum production of military gear and operational equipment load bearing systems, tactical accessories, and mission specific kit that supports personnel across every theatre of operation.

Built to Military Standards

Every fabricated asset passes through the same disciplined production culture that defines Poctova's apparel lines, exacting material selection, precision engineering, strict quality control checkpoints, and thorough inspection before delivery. Vehicles, armour, and equipment are built to withstand hostile environments, sustained field use, and the operational tempo of modern security work.

From Uniform To Armoured Vehicle

Poctova is one of the few indigenous manufacturers capable of equipping security personnel from head to toe and from the gear they carry to the vehicles they ride in. This integrated capability strengthens Nigeria's defence supply chain sovereignty and reduces dependence on foreign procurement.
